DRIVE BUSINESS PERFORMANCE WITH CANON

An unrivalled portfolio of office printers, scanners, and multifunction devices engineered to deliver for the long haul.

Empower your digital transformation and meet the changing demands of your workforce, today and tomorrow. Get all the technology to support your business growth, from constantly evolving security and an intuitive user experience to cloud connectivity and carbon reduction.

LEARN HOW OUR DEVICE PORTFOLIO SUPPORTS YOUR BUSINESS GOALS

Security

Safeguard your critical data by adopting a 360° approach to security, covering every step of the document lifecycle – from first print to device end-of-life. With Canon's latest security features such as secure authentication and encryption, you can rest assure that your documents and data are kept safe at all times.

Sustainability

With carbon reduction and resource efficiency front of mind, Canon can help you to meet your sustainability initiatives and goals. It all starts from the innovative manufacturing and a design process that targets waste at the very beginning, through to refurbished and remanufactured devices to support the circular economy.

Quality

Guarantee optimal performance, today and tomorrow with durable, high-quality materials. Our top of the range models feature machine learning powered predictive maintenance which can help to cut costs, emissions and downtime.

Reliability

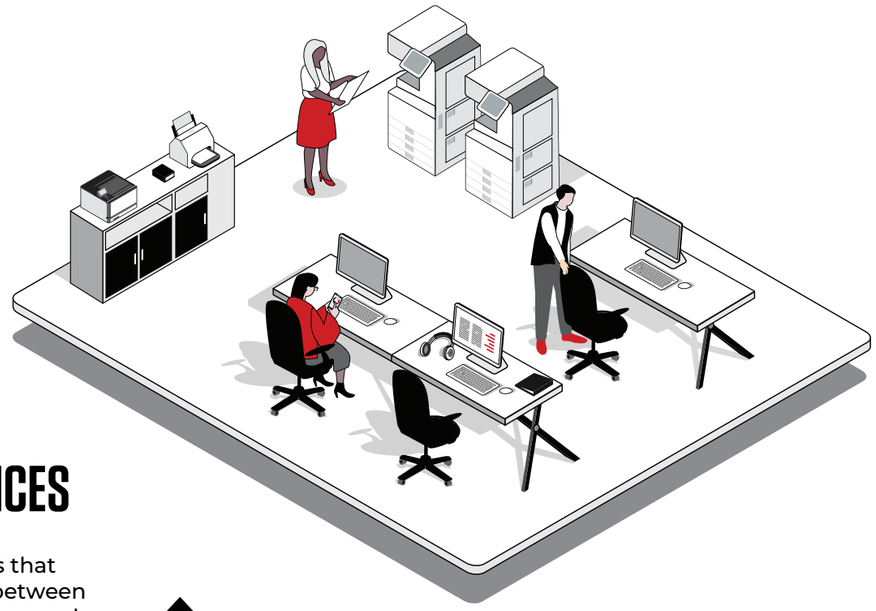

Cut unscheduled downtime, ensuring business continuity and minimising unforeseen costs. The top of the line models use smart sensor technology which continuously monitors your device's health and prevents failures before they happen.

User Experience

Enjoy a seamless user experience with an easy-to-use, tablet-like user interface featuring apps for personalisation and simplification of document workflows.

DEVICES IN THE OFFICE

MAIN OFFICES

Reliable devices that can be shared between large work-groups and deliver high quality print and scan capability.

imageFORCE C3100 - 8100 series A3 devices are the latest generation of printers delivering enhanced levels of reliability and security for large offices and workgroups.

ES range of remanufactured imageRUNNER ADVANCE devices are created using at least 90% used parts - sustainable, yet dependable.

The CU range of refurbished devices includes both A4 and A3 formats and either colour or black and white options to meet your office print needs sustainably.

imageFORCE 1000 series are the latest generation of compact A4 devices for small offices, departments and personal desktop use, delivering essential office functionality.

i-SENSYS X range of compact A4 desktop devices are perfect for small departments and service desks.

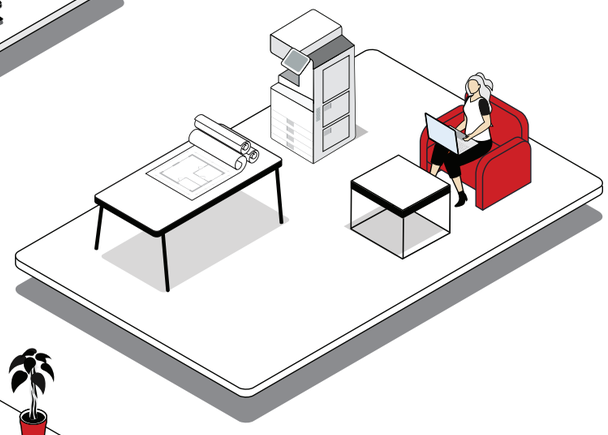

BACK OFFICE / MAIL ROOMS

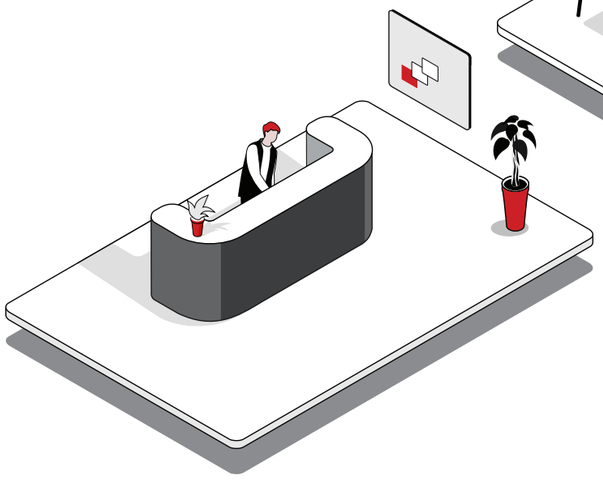

Devices that print and scan efficiently with easy customisation to support bespoke workflows.

SMALL OFFICE / HOME OFFICE / DEPARTMENTS

Secure compact devices with essential functionality to keep business moving.

CUSTOMER SERVICE POINTS

Compact devices with quick warm up times and the print and scan capability to deliver flawless customer service at retail stores and hotel receptions.

EXPLORE THE A3 COLOUR RANGE

Specialized use

imageFORCE C7165

- 65ppm **MFP**
- 18,000-47,500 RMPV
- 6,350 Max Paper Capacity
- 30% Recycled Plastic

Full-spec

imageFORCE C5100 Series

- 40 / 50 / 60 / 70ppm **MFP**
- 5,000-30,000 RMPV
- 6,350 Max Paper Capacity
- 30% Recycled Plastic

Mid-range

imageFORCE C3100 Series

- 22 / 26 / 30 / 35 / 50ppm **MFP**
- 2,000-15,000 RMPV
- 6,350 Max Paper Capacity
- 30% Recycled Plastic
- 5% Recycled Steel

Entry level

imageFORCE C3026

- 26ppm **MFP**
- 1,500-8,000 RMPV
- 2,300 Max Paper Capacity
- 30% Recycled Plastic
- 5% Recycled Steel

Specialized use

i-SENSYS X C1936P

- 36ppm **SFP**
- 2,500-7,500 RMPV
- 2,550 Max Paper Capacity

All imageFORCE A3 colour devices include a FIPS 140-2 / 3 / Level2 chip, use machine learning AI technology to recommend optimal security settings, support Microsoft Entra ID, pattern authentication, TPM 2.0, runtime protection, and more. See datasheets for full details.

ppm - Printer speed
RMPV - Recommended Monthly Print Volume
SFP – Single function printer (print only)
MFP – Multifunction printer (print, scan, copy, send and store)

EXPLORE THE A3 BLACK & WHITE RANGE

Specialized use

imageFORCE 8100 Series

- 86 / 95 / 105ppm **MFP and SFP**
- 40,000-250,000 RMPV
- 9,360 Max Paper Capacity
- 30% Recycled Plastic

Full-spec

imageFORCE 6100 Series

- 55 / 60 / 70ppm **MFP**
- 12,000-50,000 RMPV
- 6,350 Max Paper Capacity
- 30% Recycled Plastic

Mid-range

imageFORCE 4100 Series

- 25 / 35 / 45ppm **MFP**
- 2,500-30,000 RMPV
- 6,350 Max Paper Capacity
- 30% Recycled Plastic
- 5% Recycled Steel

Entry level

imageFORCE 4000 Series

- 25 / 30 / 45ppm **MFP**
- 2,500-30,000 RMPV
- 2,300 Max Paper Capacity
- 30% Recycled Plastic
- 5% Recycled Steel

All imageFORCE A3 black & white devices include a FIPS 140-2 / 3 / Level2 chip, use machine learning AI technology to recommend optimal security settings, support Microsoft Entra ID, pattern authentication, TPM 2.0, runtime protection, and more. See datasheets for full details.

ppm - Printer speed
RMPV - Recommended Monthly Print Volume
SFP – Single function printer (print only)
MFP – Multifunction printer (print, scan, copy, send and store)

EXPLORE THE A4 COLOUR RANGE

imageFORCE C611 Series

- 33 / 43 / 52 / 61ppm **MFP**
- 1,500-6,600 RMPV
- 2,300 Max Paper Capacity
- 25% Recycled Plastic
- AI Enhanced Security*

imageFORCE C1700 Series

- 43 / 52ppm **MFP**
- 1,500-5,000 RMPV
- 2,300 Max Paper Capacity
- 26% Recycled Plastic
- 5% Recycled Steel
- AI Enhanced Security*

imageFORCE C1333 Series

- 33ppm **MFP**
- 750-4,000 RMPV
- 850 Max Paper Capacity
- 10% Recycled Plastic

i-SENSYS X C1530P II Series

- 33 / 38ppm **SFP**
- 1,000-5,000 RMPV
- 2,300 Max Paper Capacity

imageFORCE C1333P

- 33ppm **SFP**
- 750-4,000 RMPV
- 850 Max Paper Capacity
- 10% Recycled Plastic

ppm - Printer speed
RMPV - Recommended Monthly Print Volume

SFP – Single function printer (print only)
MFP – Multifunction printer (print, scan, copy, send and store)

EXPLORE THE A4 BLACK & WHITE RANGE

imageFORCE 710 Series

- 52 / 61 / 71ppm **MFP**
- 3,000-17,000 RMPV
- 3,200 Max Paper Capacity
- 25% Recycled Plastic
- AI Enhanced Security*

imageFORCE 1440 Series

- 40ppm **MFP**
- 750-4,000 RMPV
- 900 Max Paper Capacity
- 5% Recycled Plastic

imageFORCE 1440P

- 40ppm **SFP**
- 750-4,000 RMPV
- 900 Max Paper Capacity
- 5% Recycled Plastic

imageFORCE 1643 Series

- 43ppm **MFP**
- 2,000-7,500 RMPV
- 2,300 Max Paper Capacity
- 25% Recycled Plastic
- AI Enhanced Security*

i-SENSYS X 1800P Series

- 61 / 71ppm **SFP**
- 3,000-20,000 RMPV
- 4,300 Max Paper Capacity

imageFORCE 1643P

- 43ppm **SFP**
- 2,000-7,500 RMPV
- 2,300 Max Paper Capacity
- 10% Recycled Plastic
- AI Enhanced Security*

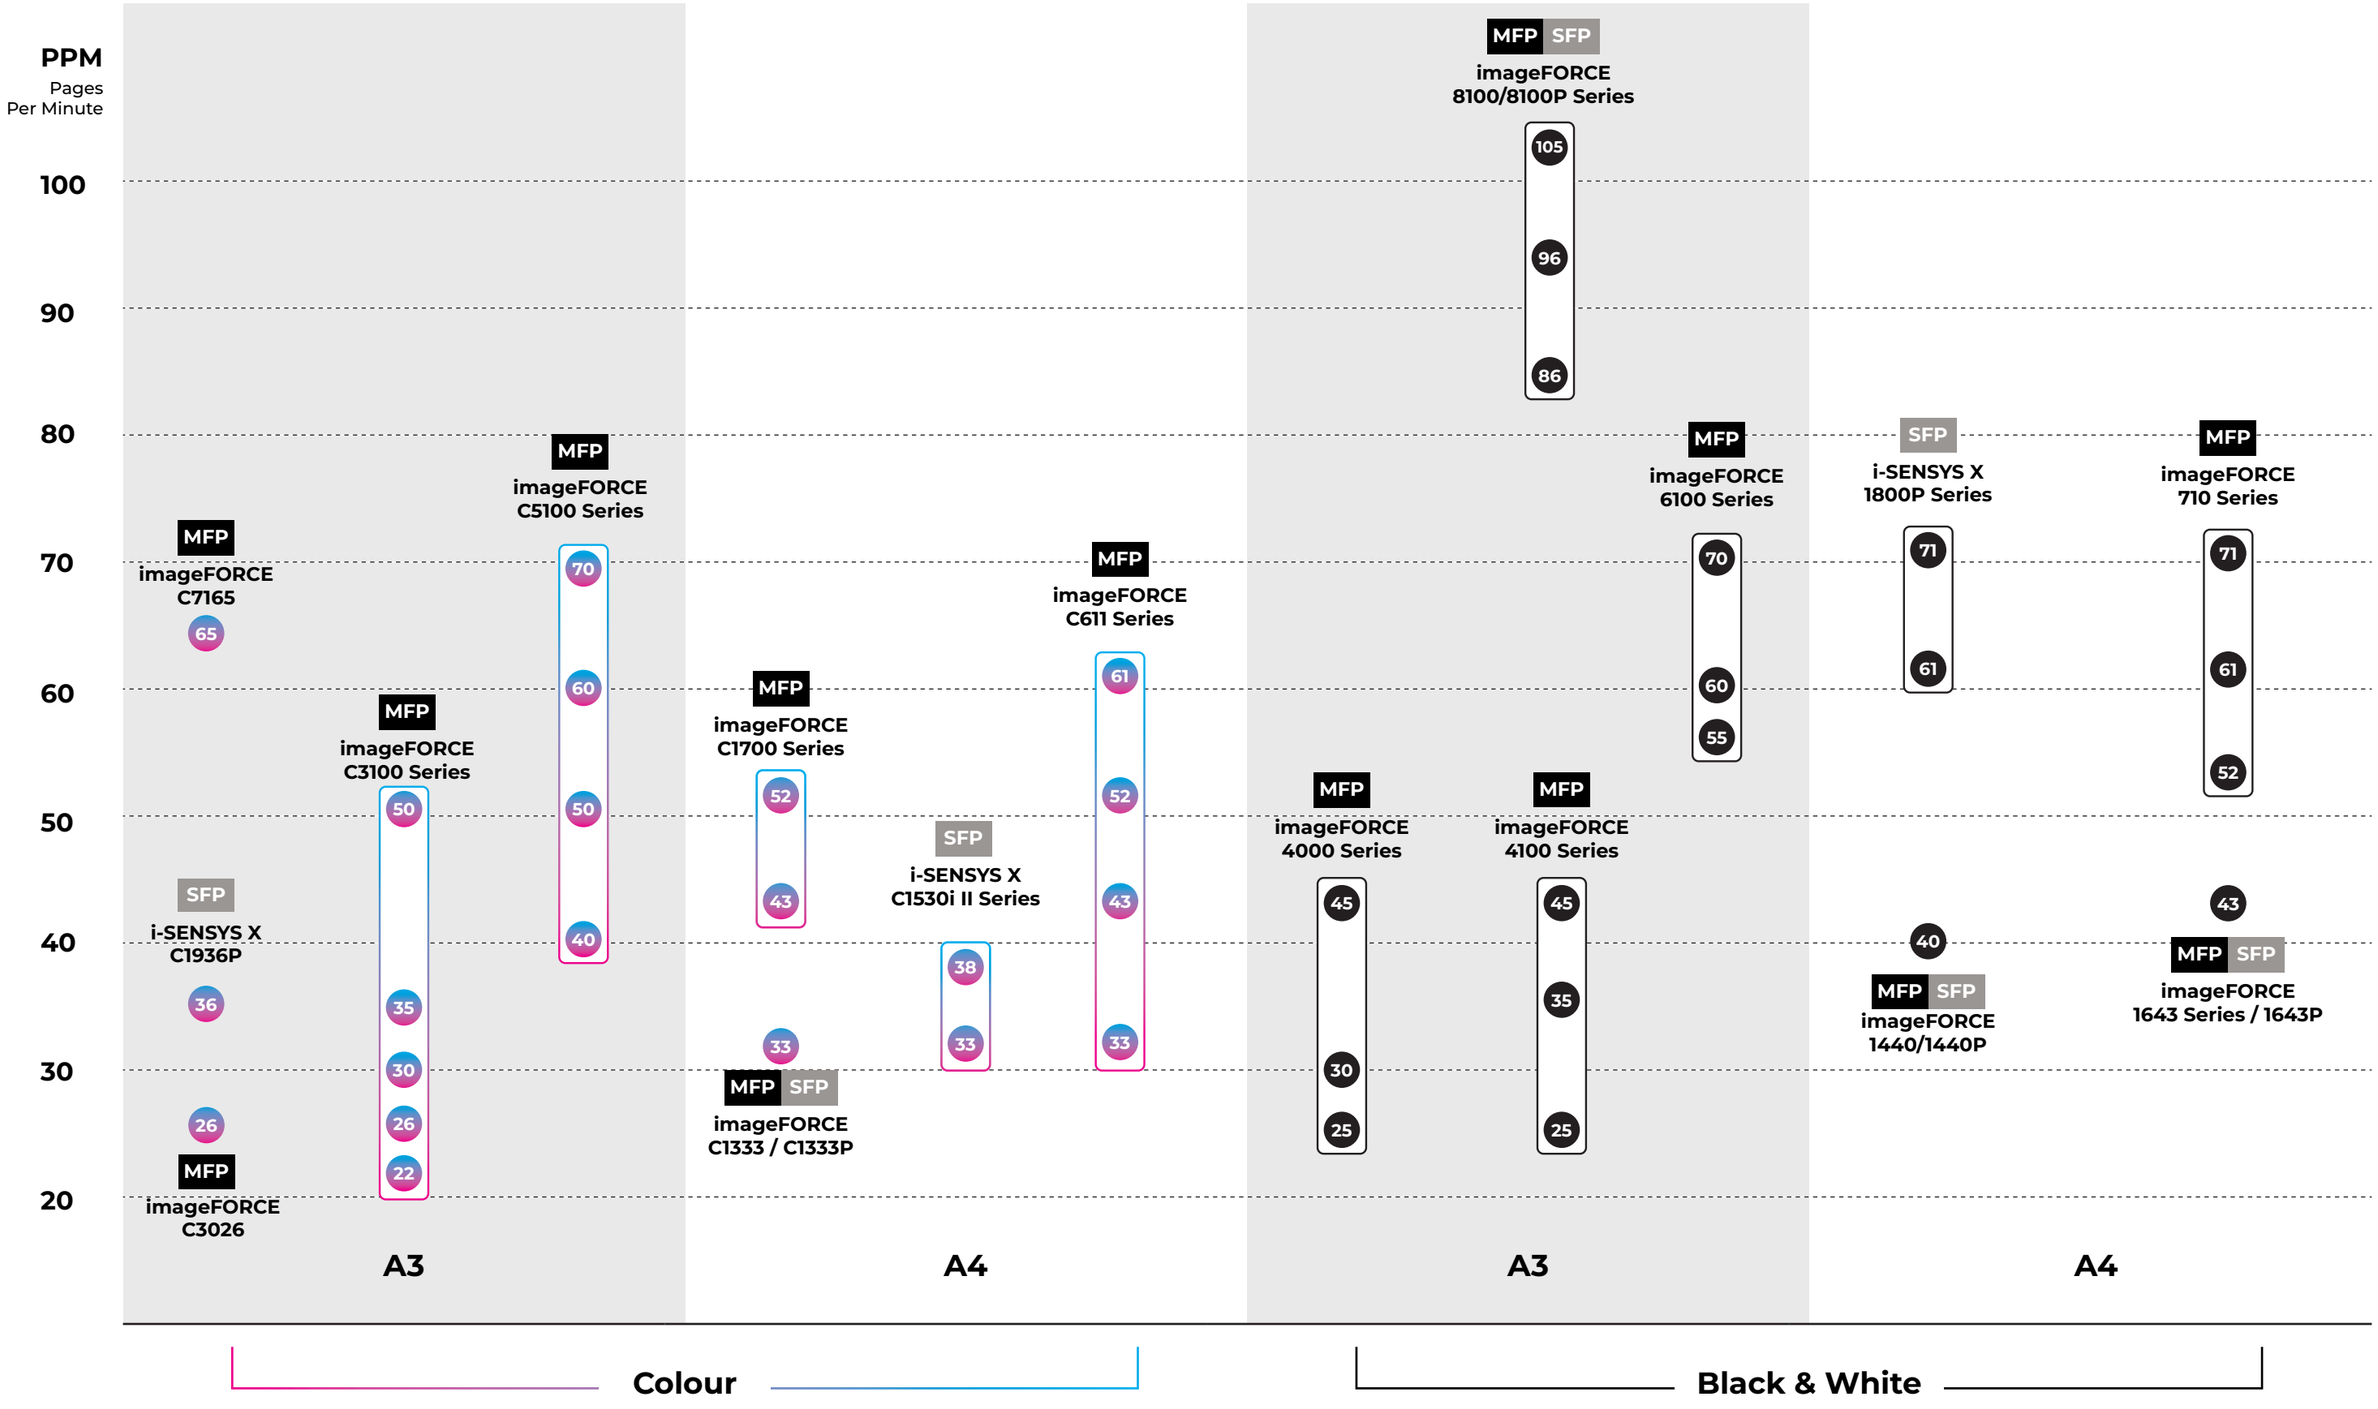

* Uses machine learning AI technology to recommend optimal security settings, include a FIPS 140-2 / 3 / Level2 chip, Microsoft Entra ID support, pattern authentication, TPM 2.0, runtime protection, and more. See datasheets for full details.

FULL PRODUCT LINE UP OVERVIEW

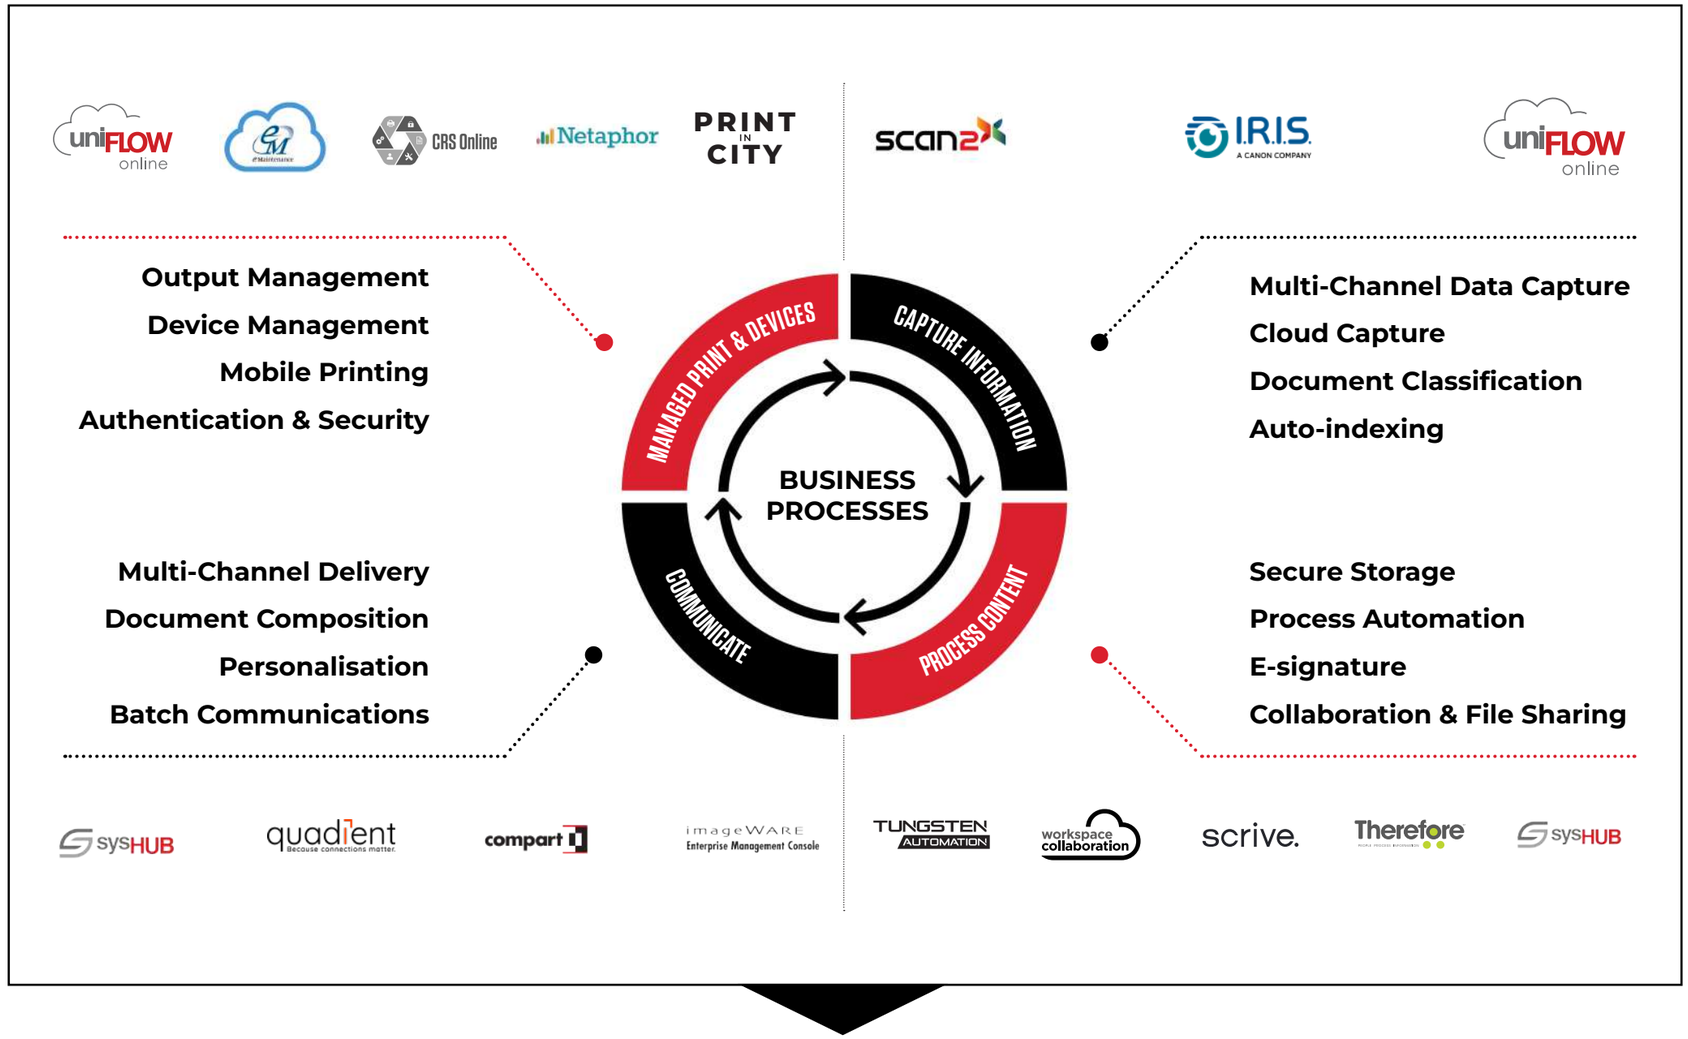

SFP Single function printer (print only)

MFP Multifunction printer (print, scan, copy, send and store)

1 2 Print speed (pages per minute)

SUPPORTING SOLUTIONS AND SERVICES

Canon MPS: Managed Print Services - securely manage print and scan infrastructure across both home and office environments

Canon Security Services: protect the print infrastructure and help maintain data compliance throughout the print and scan lifecycle

Cloud Workspace Collaboration: a secure, cloud-based platform that automates common document workflows to enhance team collaboration and productivity.

Compart: is a Customer Communication Management (CCM) solution, that helps organizations manage and optimize their customer communications across multiple channels.

CRS Online: Customer Reporting Services protect the print infrastructure and help maintain data compliance.

eMaintenance: keeps hardware devices running reliably with predictive maintenance and Smart Services.

IRIS: automatically classifies your scanned documents and extracts the essential data.

iWEMC: a web-based solution that monitors, controls and manages networked printers across an organisation.

Netaphor: Site Audit software that identifies security risks and reports on print infrastructure usage and efficiency.

Print in City: a print share solution which makes it simple for public buildings to provide print services.

Quadient: a centralised CCM platform for creating, managing, and delivering personalized, compliant communications across all channels.

Scan 2: an intelligent document-capture solution that brings the power of professional scanning applications within reach of every user.

Scrive: enabling you to provide an electronic signature and manage your documents from anywhere and on any device.

SysHUB: provides secure, centralized management & automation of document & data input and output workflows.

Therefore: document Management solutions with workflow and secure central digital repository.

Tungsten Power PDF suit: with AI features like document Q&A, translation, and smart editing—bringing generative AI into everyday workflows.

uniFLOW: Cloud / Hybrid / On-Premise Print and Scan Management to help organisations control costs, enhance document security and increase employee productivity.

Enhanced Printer Driver: Free PC software that ensures imageFORCE users get their prints stapled, hole-punched and arranged just as expected
